

Assignment 1 – 100 points

Objective:

To learn how to apply structural and inline elements to content, in order to produce a syntactically and semantically correct HTML5 document using nice code layout.

How to Submit:

You must submit this assignment on Blackboard using the assignment tool. Name the file “assignment1.html” and place it in a folder along with the image named “assignment1”. You will zip this folder to submit it on Blackboard.

Requirements:

You can use your own content, or the content provided and may modify it as desired. Place your name inside an HTML comment after the `<!doctype>`

You are free to use your own judgment and preferences. However, you must have the below requirements:

- | | |
|---|------------|
| • One heading level one element (<h1>) | 5 points |
| • Have a header section (<header>) | 5 points |
| • Have a footer section (<footer>) | 5 points |
| • Use at least one image () | 5 points |
| • Have at least two heading level two elements (<h2>) | 10 points |
| • Have at least two sections (<section>) | 10 points |
| • Have at least two paragraphs (<p>) | 10 points |
| • Use an address element (<address>) | 5 points |
| • Use a blockquote element (<blockquote>) | 5 points |
| • Use a line break (
) | 5 points |
| • Use at least three text-level inline elements | 10 points |
| • Use at least one special character | 5 points |
| • Correct HTML usage (semantics) and syntax | 10 points |
| • Nice consistent code layout | 10 points |
| | ===== |
| | 100 points |
